About Us

We are creating highly tailored events for our clients that showcase the exceptional depth of award winning experiences that we offer, whilst positioning the Yarra Valley, The Eastern Golf Club and Yering Gorge Cottages as an events destination of choice.

YOU SET THE AGENDA AND LET US DO THE REST

Big ideas can happen when your team is relaxed and enjoying the idyllic surrounds of our private nature reserve located on the doorstep to Melbourne's 'food and wine playground' and one of the Yarra Valley's best kept secrets.

At The Eastern Golf Club and Yering Gorge Cottages, we create corporate retreats by using the right combination of scenery, entertainment, and even adventure.

If big ideas are the goal, you will have plenty of room to think within our 250 acre property, within an hour of Melbourne's CBD, or just 10-15 minutes by helicopter if that's your preferred mode of transport.

Our team will work with you to create the perfect retreat that provides a tailored and unique experience for your team – with so many amazing experiences available onsite, no two retreats are the same.

Start the day off, surrounded by some of the most beautiful scenery, get some fresh air into the lungs with a morning yoga class, followed by a nutritious breakfast before commencing the day of meetings.

Develop your own 'MasterChef' cook off; incorporating the sourcing of amazing artisan food produce on a food trail of the Yarra Valley before being mentored by our Head Chef. Create some amazing team building experiences incorporating the extensive range of health and fitness facilities available or incorporate a game of 'speed golf' on Shark Waters – our Par-3, 9-hole course is perfect for those not experienced in the game - it's fun and we can help create some great on course activities.

Enjoy a blind wine tasting before dinner, or for smaller groups, maybe a privately cooked BBQ on the deck of your cottage as you watch the sun set is the perfect end to an inspiring day.

Bring your team together to enjoy an experience which is the perfect combination of relaxation and stimulation.
